

BUILDING THE MIDSTREAM

Kessel Construction has spent three generations in the oil fields. Since 1934, we've been providing construction services for E&P and midstream companies throughout Pennsylvania and the southern tier of New York. We can provide single-source capabilities or specific services to meet your unique needs.

OUR SERVICES INCLUDE:

- Compressor stations
- Custom warehouses
- Butler pre-engineered steel buildings
- Concrete slabs & foundations
- Metal fabrication
- Structural steel
- Crane systems
- Building erection
