

REDUCE ENERGY COSTS ENHANCE PRODUCTIVITY

SunLite Strip™ daylighting system adds NATURAL DAYLIGHT, energy savings, and occupant comfort to any Butler® building featuring the MR-24® roof system. Available for new or retrofit applications.

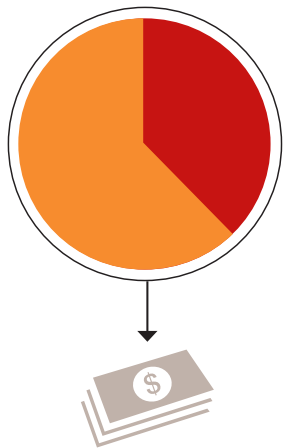

KESSEL SHOP INSTALLATION - TAKEN AT SAME TIME OF DAY

WITHOUT SUNLITE STRIP

WITH SUNLITE STRIP

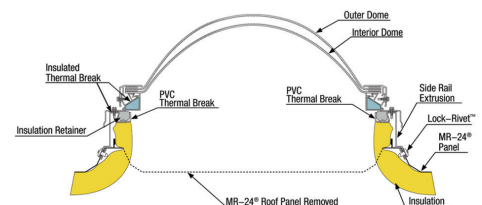

DAYLIGHTING ALONE increased same store sales by 40% for one national retailer, based on research from an independent study.

Features

- 1. Curbless design reduces roof penetrations by 30%**— reducing field labor and protecting the weathertight integrity of the MR-24® roof system.
- 2. Installs in 1/3 the time**, allowing for faster move-in.
- 3. Prismatic lenses provide 100% diffused light** to eliminate hotspots and glare.
- 4. Domed technology introduces three times more light earlier and later in the day** vs. translucent panels.
- 5. Versatile system can be integrated with control systems design** in new construction or retrofit applications.

Benefits

- 1. Reduces electrical lighting costs up to 70%** when integrated with control systems design.
- 2. Save operating costs during peak hours of operation.**
- 3. Qualify for incentives from the Federal EPCAct or local utility company.**
- 4. Can provide a return on investment (ROI) in an average of 3 to 5 years.**

Let the light in and save!

SunLite Strip™ is easy to install, thermally efficient and is guaranteed on a 20-year limited warranty.
